

Residents from all areas are invited to a

# **FREE PUBLIC FORUM**

on

## **natural alternatives** **to toxic chemicals**

**Thursday September 1st**

**7.15pm for a 7.30pm start**

**at the Payneham Community Centre**

**374 Payneham Rd, Payneham (Bus 179 from the City, Stop no 13)**

Why are cancer rates dramatically increasing? Why are we not being told about the harmful chemicals in the everyday products that we use e.g. shampoos, toothpaste, cosmetics, perfumes, deodorants, air fresheners and hair dyes etc?

How safe are household cleaning products, paints and even new carpets? What about the pesticides, additives, colourings and preservatives in our food? Are our bodies being used as toxic dumps?

**Empower yourself by finding out what the natural, safe and healthy alternatives are? Hear short, practical talks from our panelists with an opportunity for questions. Information stalls and supper follow the forum.**
