

## IMPORTANT PUBLIC MEETINGS!

[See Meeting Details Below](#)

### VITAMINS AND MINERALS IN THE FIRING LINE

Due to unprecedented demand, a series of public meetings & workshops will continue to be given by internationally acclaimed author of “**Children of a Toxic Harvest**” and “**Health Betrayal: staying away from the sickness industry**”, **Eve Hillary**.

Eve will show primary documents that prove there has been a move to shift the Australian TGA regulator into an international “CODEX” jurisdiction by stealth. She will analyse the devastating impact this will have on Australians’ accessing the health care of their choice.

Eve Hillary states; “**Without public knowledge or debate the Australian Government has initiated steps to force the natural health industry under the control of drug industries so that international Codex regulations can apply.**”

Health campaigners fear UN/WHO Codex recommendations will include a ban on supplements for preventative or therapeutic use, and that the Recommended Daily Allowance (RDA, the standard used presently in assessing vitamin and mineral intake), will be used as a way of restricting how much of any essential nutrient a person can take.

Eve Hillary will reveal the biggest betrayal and threat to health freedom in Australian history and what all citizens can do about it before the regulation of Australia's supplements is scheduled to be placed into the hands of the drug industry and outside the control of Australians and their Parliament.

**THIS SEMINAR IS A MUST. DON'T BELIEVE “OFFICIAL” SOURCES OR DEBATE WITH UNINFORMED PERSONS UNTIL YOU HAVE SEEN THESE PRIMARY DOCUMENTS OR HEARD EVE'S DATA FOR YOURSELF.**

## CODEX - Health Freedom Seminars

**ADELAIDE** - Sunday **June 19** at **NORWOOD TOWN HALL**

(Don Pyatt Auditorium) 175 The Parade, Norwood, [George St. Entrance]
